PETER OKE

I have demonstrated expertise in creating captivating physical computing and media content from conception to completion that combines visually compelling elements with powerful narratives. In addition, I have experience as a behavioral therapist and am a published research psychologist with a background in psychology.

PORTFOLIOS :

<https://drive.google.com/file/d/1-ZT8TApZ3UcWBGsbDEjJUQgjHZJsCHgi/view?usp=sharing> - Media Production

<https://www.peteroke.com/> - Product Design

Projects

○ 2024

OCAD University | Toronto, Ontario

Product design

- Created a pressure-activated foot-lamp prototype using a DIY pressure sensor and LED lights.
- Arduino was used to develop the code for how the LEDs would respond to pressure, this programming was downloaded onto a protoboard.

○ 2024

OCAD University | Toronto, Ontario

Product design

- Created an interactive installation modeled after a peep-hole kaleidoscope
- This group project used p5js code to create sound-responsive kaleidoscope images, which were displayed on phone screens placed beside each other inside a structure with peep-holes, to create a dynamic interactive experience.

○ 2024

OCAD University | Toronto, Ontario

Product design

- Created a screenless installation that combines nose-tracking technology, light transitions, and a leaf-inspired structure to connect participants with the natural cycles of change, blending human presence with nature.
- Iterative Design Process: The project involved coding with p5.js and ml5.js, and integrating servo motors and lights.

○ 2024

OCAD University | Toronto, Ontario

Product design

- Created an interactive documentary that explores the lives of two surfers from Tarkwa Bay, Nigeria, capturing their dreams and struggles amidst the backdrop of navy occupation. Participants can choose to follow Abraham's journey to reconnect with his mother or Christiana's pursuit of breaking gender barriers in professional surfing.
- The experience uses intense soundscapes to heighten emotional impact, with warnings and customizable options for those sensitive to immersive environments, ensuring participant well-being while exploring deeply personal narratives.

Experience

○ 2024

Eastwood Psychologists | Brampton, Ontario

Behavioural Therapist

- Supported autistic children and teenagers with developing their verbal and social skills through play-based programs and community activities.
- Worked with my supervisor and the clients' parents on behaviour reduction treatments to reduce adverse behaviours and help clients adjust to their everyday lives.

○ 2017 - present

Forcados Media Studios | Lagos, Nigeria

Freelance Media Producer

DOCUMENTARIES

- Short Documentary for the Lagos State Resilience Office (LASRO), backed by the Rockefeller Foundation's 100RC program, on the topic of the utilization of garbage barges in the transportation of refuse across the city. | **Videographer and Editor, 2019**
- Feature Documentary titled BOYS ON THE BRINK, an intimate coming-of-age feature documentary that focuses on 6 boys (aged 10-25) across six communities in Lagos, Nigeria. | **Director, Producer and Co-editor, 2022**
- Docuseries for Quramo Productions titled REDEEMING: THE STORY, a series chronicling the foundation and expansion of the Redeemed Christian Church of God. | **Cinematographer, 2023**
- Feature Documentary titled BEYOND THE BAY, an impact-driven film on local surfers in Lagos, Nigeria. | **Director, Producer and Co-editor, 2023 - present**

○ 2014 - 2015

Mobile Health Consult Nigeria Ltd. | Lagos, Nigeria

Assistant Psychologist

- Supported children on the Autism spectrum and with Downs Syndrome using drug-free and non-invasive treatment techniques, such as biofeedback therapy, to improve brain functions and cognitive capacity.

○ 2013 - 2014

City University Psychology Department | London, United Kingdom

Research Assistant

- Contributed to a published research paper in the *Frontiers in Neuroscience* journal, titled 'Enhancing Emotional Experiences to Dance Through Music'.
